The screenshot shows a user interface for an educational platform. At the top, there is a navigation bar with links for Home, English, Practice Center, Tools, and Logout. Below this, a blue header contains a dropdown menu for 'Choose Unit:' set to '1. Animals in Danger' and a 'Unit Objectives' button. The main content area features three course cards: 'Which animal will you vote for?' (with a 'Last studied: July 11 2013' label circled in red), 'The Asian Elephant' (with a 'Last studied:' label circled in red and a red arrow pointing to its 'Start' button), and 'The History of Zoos' (with a 'Last studied: July 11 2013' label circled in red). A bottom navigation bar shows six numbered tabs, with the fourth tab (numbered '4') highlighted in red.

Unit 1: Animals in Danger Lesson 5: The History of Zoos

1 Getting ready to read

2

You are going to read about the history of zoos. Which country do you think was the first to have a zoo? Read the text and check your answer.

The History of Zoos

Zoos weren't always like the zoos we have today. The first type of zoo was called a menagerie. Menageries were private collections of exotic animals owned by wealthy people or rulers of countries. Archeologists believe that the first menageries were started in Egypt, in 2500 BCE. Archeologists have also found signs of early zoos in Greece, Rome and China.

The navigation bar features three course cards. The first card, titled "Which animal will you vote", shows an illustration of a man and a woman and has a "Start" button. The second card, which is highlighted with an orange border, shows an elephant and has a "Start" button. The third card, titled "The History of Zoos", shows a giraffe and has a "Start" button. Below the cards is a progress indicator with six numbered circles, where the fourth circle (number 4) is highlighted in red. Navigation arrows are present on the left and right sides of the bar.
